

10 REASONS WHY DRIVING YOURSELF CAN RUIN YOUR WEDDING DAY

So, you don't have a large enough vehicle to travel and celebrate safely all together...

We get it!

You'd love your wedding party to travel together, sharing every moment of your day. You may have considered luxury chauffeured service but you're thinking of ways to save money. Sure, separating your wedding party is an option as chauffeured service seems more luxurious than you are used to. But ...this is No Ordinary Day. You deserve to be celebrated from beginning to end and not miss out on a single moment.

Driving yourself can ruin your time to celebrate together and leave you missing out on time with your wedding party. With a Luxury Chauffeured Limo Experience You Can:

1

Say goodbye to driving your compact car.

Let's face it, you could fit 15 people in a minivan but it's probably not the best idea. How else will everyone get there on time while enjoying the experience together? Yellow school bus? Not a chance! Celebrating with your closest friends in a Luxurious Chauffeured Limousine or LimoBus is more than just a comfortable, spacious ride.

2

Avoid wasting hours cleaning your car.

Let's be honest, when was the last time you thoroughly cleaned your vehicle? Grease is meant for your door hinge, not your dress. Let someone else worry about cleaning, maintenance and enough fuel for the day. When you start thinking about these questions, you realize it's more than just transportation.

3

Start the party in your driveway.

Step into the limo. Press play on your favourite beats playlist. Sing at the top of your lungs all the way to the chapel.

4

Feel like royalty.

No doors to open. With chauffeured service, you get a door-to-door, first-class, white glove experience. You will feel like royalty everytime the door opens and you step onto the red carpet.

5

Say good riddance to your GPS.

Who's worried about the best route to avoid traffic or how long it will take to get there? NOT YOU!! Traffic, congestion, detours and road closures are not your concern. With chauffeured service, don't be surprised if the journey becomes as memorable as the destination.

6

Count your blessings not your drinks.

How much giggle juice before you or your guests end up in the slammer? You deserve to celebrate from beginning to end, without risking your future and sacrificing what you want. All of a sudden, the money you save with chauffeured service, not to mention the embarrassment of being arrested, makes the investment well worth it. You are responsible for the whole event, but when you hire chauffeured service, you remove the risk!

7

Focus on the wedding not the road.

You only get one shot to execute your wedding plan. The last thing you want is an accident causing the whole day to fall apart because someone you love is thinking more about your wedding than paying attention to the road. Chauffeured service allows everyone to fully focus on your wedding. It is the chauffeur's priority to focus on getting you there safely and on time.

8

Get lost in the moment, NOT the weather.

If bad weather shows up, it won't leave you soaked. It won't shipwreck your celebration and delay your day. If it rains, don't worry, you're covered! Chauffeurs carry big umbrellas.

9

Have everything you need in your mobile bridal suite.

Makeup bag. Kleenex. Coats. Drinks. Snacks. Wedding emergency kit. With chauffeured limo service, you have a luxurious mobile bridal suite dedicated just for you. You can rest assured that you will have everything you need with you. All Day! Safe & ready. Your limo. Your chauffeur.
